Re: Gordon Food Service – Kannapolis 2015

Dear Mr. Baker:

I submit this letter in recognition of Gaylor Electric's outstanding performance on the above referenced project in all aspects of a construction project; cost, schedule, quality, and safety. Time and time again throughout the project Gaylor employees and management continued to surpass Whiting-Turner and Gordon Foods' expectations.

Notably, GFS was constantly praising how professional Gaylor's work turned out and how impressed they were that conduit runs were installed precisely as they were shown on layouts and isometrics. This is also a testament to Gaylor's leadership and organization on the project. Having a dedicated Foreman in each area with sole responsibility for that area's completion and quality allowed for detailed oversight on a large project with multiple areas of working occurring simultaneously.

This organization was also demonstrated in their safety program. While on the job another subcontractor's employee fell from a scaffold and injured his head. Fortunately, two (2) Gaylor employees were nearby and as they are both First Aid certified were able to respond and stabilize the injured employee until medics arrived.

In closing, working with Gaylor Electric on the GFS Kannapolis project was a pure pleasure. Whiting-Turner has already looked into utilizing Gaylor on many other projects and I look forward to working with them again.

VERY TRULY YOURS,

**THE WHITING-TURNER CONTRACTING COMPANY**
