RE: Gaylor Electric – Letter of Recommendation

To Whom It May Concern:

From February 2017 to November 2018, Gaylor Electric has been our electrical contractor for the new construction of Amavida Senior Living located in Fort Myers, Florida. During this time, we have been extremely pleased with the project team's capabilities, performance, and attention to safety and quality.

Throughout our time together, there were various design challenges that our construction team faced - especially in the beginning stages. The Gaylor team was always proactive and a great help when it came to resolving issues quickly and providing value engineering options. Their overall approach to collaboration was valuable and directly correlated with the success of the project. In addition, Gaylor demonstrated unmatched safety practices and procedures.

We would be pleased to work with them again in the future.

Sincerely,

Colin Marshall
President
